MEMORANDUM FOR COMMANDERS, DEFENSE CONTRACT MANAGEMENT  
DISTRICTS

SUBJECT: DCMC Memorandum No. 96-79, Pilot Mentor-Protege Program (POLICY)

This is a POLICY memorandum. It expires when the performance reviews are completed.  
Target Audience: Administrative Contracting Officers (ACOs) and Small Business Specialists.

We received the attached memorandum (Attachment 1), dated November 6, 1996, from the Director, Office of Small and Disadvantaged Business Utilization (OSADBU), Office of the Under Secretary of Defense, requesting that DCMC conduct annual performance reviews of all mentor-protege agreements. Attachment 2 is a listing of the mentors and proteges. These reviews are necessary for OSADBU to ascertain the success of the program and are required by Defense Federal Acquisition Regulation Supplement (DFARS) Appendix I-111.

The following areas should be covered in your report:

- a. Identify planned technical assistance, associated costs (both reimbursed and unreimbursed), tasks accomplished, and dates of accomplishment.
- b. Identify protege costs, if any.
- c. Verify that Standard Forms 294/295 properly reported any credit taken toward Small and Disadvantaged Business subcontracting goals and included attachments required by DFARS Appendix I-111.
- d. Contrast the protege firm's baseline at the start of the program (in terms of all prime/subcontract awards as well as technical capabilities) with the firm's current status as a result of participation in the program.
- e. Reviews must include discussions with the protege (the intended beneficiary of the program) to ensure receipt of the assistance reported by the mentor.

OSADBU has also issued their own direct data request of all mentors and proteges for data through FY96 at Attachment 3. Please update this information for FY97 and future years as part of the periodic review required by DFARS Appendix I-111.

The due dates for the reports are as follows:

a. August 29, 1997 -- This is for the final review for all Defense Supply Services - Washington (DSS-W) cooperative agreements awarded by DSS-W at Attachment 4. All of these agreements expired on September 15, 1996, and a final review is required. Note that updated data call information is not required.

b. December 31, 1997 -- This is for the initial review for all agreements entered into by a program-funded arrangement, all cooperative agreements with the Defense Information System Agency, and all agreements for credit only. This also includes all agreements which have been approved since the program's inception. Review also includes agreements which have been terminated or are considered complete. Priority should be given to program-funded mentor-protégé agreements. On subsequent annual reviews, it is only necessary that agreements which have been active in the previous 12-month period be reviewed. Note that updated data call information is required for FY97; see Attachment 5.

Please ensure that your Contract Administration Offices (CAOs) send the original reviews, as they are completed, directly to OSADBU, with one copy to the CAO's District Headquarters, ATTN: Operation and Technical Support; one copy to Headquarters, Defense Contract Management Command, ATTN: AQOC; and, for program-funded agreements, one copy to the cognizant Service/Defense Agency SADBUs Office.

These performance reviews are an integral part of OSADBU overall assessment of the Mentor-Protégé Program and crucial to their analysis of the relative merits of the various agreements and the avenues for reimbursement and/or credit offered under the program.

The points of contact concerning this matter are Mr. William Boseker, Business Practices and Contract Payment Team (AQOC) on DSN 427-3446 or 703-767-3446, Internet address: [william\\_boseker@hq.dla.mil](mailto:william_boseker@hq.dla.mil). or Mr. David Potter, DLA Small & Disadvantaged Business Utilization on DSN 427-1654 or 703-767-1654, Internet address: [david\\_potter@hq.dla.mil](mailto:david_potter@hq.dla.mil).

This letter has been coordinated with the Director, Small & Disadvantaged Business Utilization, (DDAS) HQ DLA.

MEMORANDUM FOR EXECUTIVE DIRECTOR, CONTRACT MANAGEMENT  
POLICY, DEFENSE LOGISTICS AGENCY  
DIRECTOR, OFFICE OF SMALL AND DISADVANTAGED  
BUSINESS UTILIZATION, DEFENSE LOGISTICS  
AGENCY

SUBJECT: DoD Pilot Mentor-Protégé Program Performance Reviews

The Mentor-Protégé Program is a significant part of the overall subcontracting program for many major DoD prime contractors. In order for us to ascertain the success of the Program it is critical that we establish and maintain a regular performance review process. To this end, please ensure that all mentor-protégé agreements under your cognizance are reviewed annually. This review may be conducted as part of the surveillance review of the mentor firm's small, small disadvantaged and women-owned small business subcontracting program.

Reviews were conducted last year by DCMC for all agreements implemented through cooperative agreements awarded by Defense Supply Services - Washington (DSS-W). All of these agreements expired on September 15, 1996. Please conduct a final review for all DSS-W cooperative agreements within the next fiscal year.

This will be the initial review for all agreements entered into by a program-funded arrangements, all cooperative agreements with Defense Information Systems Agency (DISA), and all agreements for credit-only. Please review all agreements which have been approved since the program's inception. This review should include agreements which have been terminated or are considered complete. Priority should be given to program-funded mentor-protégé agreements. On subsequent annual reviews, it is only necessary that agreements which have been active in the previous twelve month period be reviewed.

Your reviews must include discussions with the protégé (the intended beneficiary of the program) to ensure that it has received the assistance reported by the mentor.

This office issued the initial data request of all mentors and proteges. (See attachment 1). We request that DCMC maintain and update this information for FY 97 and future years as part of the periodic review required by Defense Federal Acquisition Regulation Appendix I-111. In addition to updating the data elements, the DCMC report should:

- identify planned technical assistance, associated costs (both reimbursed and unreimbursed), tasks accomplished, and dates of accomplishment;

- identify protégé costs, if any;
- verify that SF294/SF295 properly reported any credit taken toward SDB subcontracting goals and included attachments required by DFARS Appendix I-111; and
- contrast the protégé firm's baseline at the start of the program (in terms of prime/subcontract awards as well as technical capabilities) with the firm's current status as a result of participation in the program.

All reviews should be completed prior to September 30, 1997. Please ensure that your Contract Administration Offices (CAOs) send the original reviews, as they are completed, directly to OSD (OSADBU), with one copy to the CAOs District Headquarters, ATTN: Operation and Technical Support; one copy to the Headquarters, Defense Contract Management Command, ATTN: AQOC; and, for program-funded agreements, one copy to the cognizant Service/Defense Agency SADBUs Office.

Attachment (2) provides a listing of all mentor-protégé agreements to date which are under your cognizance. This listing has been coordinated with your respective offices. At the conclusion of each fiscal year, we will provide you with a listing of those agreements which have not been reviewed so that you can take corrective action.

These performance reviews are an integral part of our overall assessment of the Mentor-Protégé Program and crucial to our analysis of the relative merits of the various agreements and the avenues for reimbursement and/or credit offered under the program. Thank you for your cooperation in this important effort.

Dear DoD Protégé Firm:

We are at a critical stage in the DoD Pilot Mentor-Protégé (MP) Program. It is important that we conduct a thorough assessment of the program in order to make a determination regarding improvements which might be made to enhance our program success. As part of this effort, we ask you to respond to this request for data regarding your participation as a protégé in the MP Program. A similar request is being forwarded to your mentor firm.

This request encompasses credit-only agreements as well as all reimbursable agreements (including both cooperative and program-funded agreements). You may reproduce the survey (Attachments A and B) as needed, and we encourage you to provide additional information which may be helpful to our analysis. Attachment C provides some relevant definitions. In order to give us a clear perspective of the changes resulting from program participation, we have also asked for certain baseline information for fiscal years 1990 and 1991.

To ensure that our review is timely, your response must be received not later than December 7, 1996. The completed attachments should be mailed to: OSD(SADBU) Mentor-Protégé Program Manager, Room 2A338, 3061 Defense Pentagon, Washington, D.C. 20301-3061. In addition, we ask that you retain a copy of your completed survey and make it available to your cognizant DLA (or other DoD) reviewing agency. If you have any questions pertaining to this request, you may contact the Mentor-Protégé hotline at 1-800-553-1858 or e-mail your question to "mpp@madentech.com".

Thank you for your cooperation in this effort. Your input will enable us to perform a thorough analysis of the MP Program and, should it be warranted, propose legislative changes and/or permanent status to this important program.

Sincerely,

  
ROBERT L. NEAL, JR.  
Director, Office of Small and  
Disadvantaged Business Utilization
